-----

Comes now Wayne D. Criddle, Utah State Engineer, and represents and moves as follows:

1. That there has been entered by the Court in this matter a decree in 1921 known as the Provo River Decree.
2. That said decree purports to adjudicate all the waters, including all tributaries, of the Provo River.
3. That the State Engineer is empowered to appoint water commissioners for the administration of waters of the State of Utah by Section 73-5-1, Utah Code Annotated 1953.
4. That a Provo River water commissioner, having been so appointed and as the representative of the State Engineer, has endeavored to administer the waters of Provo River in accordance with the provisions of said decree.
5. That one David Long of Provo, Utah has repeatedly interfered with the administration of the waters of the Provo River by said water commissioner to the detriment of the users of the Provo River, and that such interference is wholly without right as it involves waters to which Mr. Long is not entitled.
6. This matter is one over which the Court has retained continuing jurisdiction.

NOW, THEREFORE, Wayne D. Criddle, Utah State Engineer, respectfully moves this Court to order said David Long to show cause why he should not be enjoined from all such further interference.

Dated this 26<sup>th</sup> day of August, 1960.
